

PICOTE SMART ROLLER

Powered for Lining on the Go

The Picote Smart Roller is an affordable, compact, easy-to-carry, simple to use, powered calibration roller for wetting out CIPP liner.

There is no need to access electricity because your battery-operated hand drill powers the roller, adjusts the speed and direction. Although designed to be portable, it can also most mounted to a work surface.

Costing less than more basic manual equipment, the virtually maintenance free Smart Roller is an obvious choice for contractors.

USES, BENEFITS, PRODUCTS AND PARTS

- Drill powered calibration roller for wet-out of DN50-150 (2-6") liners.
- A handy quick lock allows you to lift up or completely remove the upper roller.
- Roller gap height is easily adjusted to meet the liner requirements.
- The textured roller surface underneath the safety roller cover keeps the liner moving smoothly to prevent wrinkling.
- Optional liner holders serve as an extra set of hands and help you to easily pour resin inside the liner.
