

SMART CONTROL UNIT

Precision & Portability Your Connection Collar Installs

The Smart Control Unit brings unparalleled ease-of-use and efficiency to your fingertips.

Featuring a versatile dual-function design, this device expertly combines air pressure control and vacuum regulation capabilities. Now, you can seamlessly manage pressure and vacuum down Picote Connection Collars with a simple flip of a lever, drastically reducing set-up time and improving productivity.

Now there is no need to remove the Pressure Regulator or Pocket Vacuum and swap back and forth when preparing and installing Connection Collars. Take control of your pressure and vacuum needs in an efficient, robust, and portable package.

USES, BENEFITS & PRODUCTS

Features & Benefits

- Housed in a robust aluminium case, portable and lightweight.
- Simple lever switches between the pressure and vacuum functions.
- Adjustable pressure control.
- Vacuum feature bypasses the pressure regulator for full vacuum.
- Pressure gauges for both pressurizing and vacuuming.
- Protective design protect all parts, including connectors and instruments.
- Sturdy carrying strap for easy use and transport.
- *Not for use with point repair packers.*

Technical Specifications

Category	Measurement
Size (LxWxH)	310x305x143mm 12.2x12x5.6"
Weight	2.8kg (6.2 lbs)
Max Input Pressure	6 Bar (14.5 PSI)
Vacuum Flow Rate	26L per minute (6.9 Gal per minute)
Max Vacuum Pressure	-90kPa (-13 PSI)
Pressure Gauge	-1 to 3 Bar (-14.5 to 43.5 PSI)
Air Regulator	0 to 2 Bar (0 to 29 PSI)
