

PICOTE GRABBERS

Avoid Digging to Retrieve Tools or Foreign Objects

Picote Grabbers allow you to quickly retrieve lost tools, or foreign objects blocking a pipe, and avoid the time and costs of digging and demolition.

While directing the location with your CCTV camera, simply push the Grabber into position. The grabber head is easily rotated which makes it easy to locate and grip the item with precision.

Then, simply turn on the air valve to get a rock solid grip on the object to pull it out and retrieve it. Turn off the air to release.

USES AND BENEFITS

- Two sizes: Original and Large
 - Original comes with 2 different jaw sets.
 - Large comes with 1 set of jaws.
- Grabber Extensions can increase the reach of the Original and Large Grabbers by using 1-2 of the 10m (32') extensions.
- Grabber Push Turn your Push Rod string into a Grabber to remove by adding the Original Grabber Head for Push Rod attachment.
- Navigates 90° bends.
- Use with CCTV camera & air compressor.

Technical Specifications

Category	Measurement
Maximum Jaw Opening	Original: 3.2" (80mm)
	Large: 5.1" (130mm)
Maximum Item Lifting Weight	Original: 80lbs (35kg)
	Large: 150lbs (70kg)
Air Requirement	Minimum: 8 Bar (116 PSI)
	Maximum: 10 Bar (145 PSI)
Pipe Diameters	Original: 4" (DN100) or larger
	Large: 6" (DN150) or larger
Starting Length	10m (32')

More Info/Guides/Technical Support:

- Visit picoteinstitute.com for e-learning courses, educational videos, quick guides, & manuals.
- For more information on spare parts, assembly and operation, consult the Picote Operating & Safety Manual or contact Picote Technical Support.
- For product training, Picote operates training centers in USA, UK & Finland.

Recommendations:

- Always use caution when operating the Grabber outside of the pipe.
- Always ensure the air pressure hose is disconnected when changing the jaws.
- Always use a CCTV camera when working with the Grabber.
- Original Grabber Jaw selection:
 - Choose Jaw Set 1 to pick up chains and debris with good grabbing points.
 - Use Jaw Set 2 to pick up more rounded and smooth items which are harder to grip.
